

Sustainable Finance Mobilization Program for PSDP
Senior Climate Finance Consultant – International
Terms of References

According to World Bank's CCDR, it is estimated that the total investment of USD 348 Billion is required for climate response between 2023 and 2030. Additionally, to achieve full implementation of its Nationally Determined Contributions (NDCs), Pakistan would require a total cost of nearly USD 200 billion.

As a result, there is a concerted effort to mobilize private capital for climate responsive investment domestically and internationally. In this regard, Planning Commission has initiated SFMP. The resulting framework and manuals for private capital mobilization including climate finance & carbon finance would be approved by the Planning Commission and will apply to all Public Sector projects. The ToRs are enclosed:

Senior Climate Finance Consultant – International

Scope of Work

- 1. Maximize Access to International Climate Finance**
 - Support the government and provide advice to national counterparts to maximize access to international climate finance and ease the application process through thorough review and understanding of the procedures, eligibility, and available opportunities.
- 2. Develop Green Project Pipeline**
 - Develop a green project pipeline (green sukuk, funds and other instruments etc.)
 - Collaborate with provincial departments and federal ministries to prepare project pipeline.
 - Review the PSDP pipeline for potential climate finance projects.
- 3. Develop Guidelines for High-Quality Project Proposals**
 - Develop guidelines to assist MoPDSI in preparing high-quality project proposals for climate finance, including identifying suitable funding sources, formulating project concepts, and preparing detailed project proposals that meet international climate finance requirements.
- 4. Identify and Address Capacity Gaps**
 - Identify capacity gaps within MoPDSI and Planning Commission to develop a capacity-building plan to enhance the skills and knowledge of relevant staff members in climate finance management, project development, and proposal writing.
- 5. Provide Technical Guidance and Support**
 - Provide technical guidance and support to MoPDSI throughout the project implementation process, including project monitoring, reporting, and evaluation.
- 6. Establish Strategic Partnerships**
 - Establish strategic partnerships with financial institutions, development banks, international organizations, and relevant stakeholders to mobilize additional resources for climate finance.
- 7. Advocate for Conducive Policies**
 - Engage with relevant government bodies and policymakers to advocate for conducive climate finance policies and regulatory frameworks.
- 8. Organize Training and Capacity-Building Workshops**
 - Organize training programs and capacity-building workshops for government agencies, financial institutions, and stakeholders on climate finance principles and best practices in project preparation.
- 9. Facilitate Knowledge Exchange and Collaboration**
 - Facilitate knowledge exchange and collaboration with other climate finance institutions and global entities to leverage expertise and stay abreast of emerging trends.

Deliverables

The consultant will be required to deliver the following:

- 1. High-Quality Project Proposals**

- Develop high-quality project proposals for climate finance, including identifying suitable funding sources, formulating project concepts, and prepare detailed project proposals that meet international climate finance requirements.

2. Develop Green Project Pipeline

- Develop a green project pipeline (green sukuk, funds and other instruments etc.)
- Collaborate with provincial departments and federal ministries to prepare project pipeline.
